OBJECTIVE

As a dedicated 3rd year Computer Science student, I am passionate about applying my knowledge to real-world challenges. I am actively seeking opportunities to grow both technically and personally by learning from industry experts. My problem-solving abilities, combined with a creative approach, enable me to tackle complex challenges effectively. I am a fast learner, proactive, and thrive in collaborative environments. With a strong focus on teamwork and a positive attitude, I am eager to contribute meaningfully to any project or team.

EDUCATION

| | |
|----------------|--|
| 2022 – present | Afeka Tel Aviv Academic College of Engineering , B.Sc. in Computer Science, 3rd year student GPA:83 |
| 2019 | Blich - High School Diploma - Majors in Chemistry and Arabic graduated with academic and social distinction. |

PROJECTS

Android Development Project - "Wander & Go" Application [🔗](#)

An Android travel management app in Java using Android Studio, featuring Firebase Authentication, Realtime Database, and Storage integration for personalized itineraries, flight management, and packing list planning.

Android Development Project - "Spongebob Vs. Jellyfish" Obstacles game Application [🔗](#)

Android app in Java using Android Studio, featuring a leaderboard, Google Maps for player locations, customizable controls and difficulty, and optional sensor-mode gameplay.

SQL - Cinema Management System [🔗](#)

Developed a SQL-based cinema management system in collaboration with another student. Designed the database architecture with an ERD diagram and implemented tables, views, functions, and triggers to manage screenings, ticket sales, employee roles, and analytics, ensuring data integrity and operational efficiency.
